## EDUCATION

---

### Los Angeles Valley College

AS-T Film, Television, and Electronic Media

Los Angeles, CA

Summer 2019 - Spring 2023

- Gained comprehensive knowledge of radio and television production techniques, including hands-on experience in areas such as scriptwriting, editing, and broadcasting.
- Acquired in-depth knowledge of remote production protocols through coursework and hands-on projects, demonstrating the ability to effectively manage and execute remote production processes.
- Gained valuable hands-on experience in production and engineering while working at the campus radio station, assisting with various tasks such as audio editing, equipment setup, and live broadcasts.
- Actively participated in the Broadcasting Club, gaining hands-on experience in media production and communication. Recognized for academic excellence and inclusion in the Dean's Honor List.
- Assisted the instructor in a multi-camera live TV production class, providing support to students and gaining hands-on experience in various aspects of production, including camera operation, lighting, and post-production editing.

## WORK EXPERIENCE

---

### KVCM.live

Lead Software/Video Engineer (Volunteer)

Los Angeles, CA

April 2020 - Present

- Configured and maintained the radio stream using advanced tools such as OBS, Twitch, and Icecast, ensuring uninterrupted broadcasting and high-quality audio streaming for KVCM.live.
- Developed and maintained a suite of Python and JavaScript scripts and tools to automate various tasks, reducing manual effort and improving overall productivity for the team at KVCM.live.
- Developed and launched a Progressive Web App (PWA) using SvelteKit for KVCM.live, resulting in an enhanced user experience and increased engagement on the platform. (<https://beta.kvcm.live>)
- Resolved technical issues with remote hosts and guests, ensuring smooth operation and uninterrupted streaming for KVCM.live's live video broadcasts.

### LAVC Athletics

Technical Director (Intern)

Los Angeles, CA

Fall 2022 (Seasonal)

- Coordinated the setup and configuration of capture cards, laptops, and streaming software for live streams, ensuring seamless and high-quality broadcasting for LAVC Athletics events as the TD.
- Developed and configured a multi-camera OBS profile, leveraging NodeCG to design and create a custom scoreboard graphic for LAVC Athletics, enhancing the overall production quality of live sports events.
- Assisted in training fellow students in the operation of OBS and NodeCG, equipping them with the necessary skills to effectively manage live streaming and graphics production for LAVC Athletics events, contributing to seamless event execution.

### LA-Tech + Fika Ventures Career Accelerator

Academy Scholar

Los Angeles, CA

February 2022 - April 2022

- Gained valuable industry exposure and networking opportunities through 120 hours of paid experience with high-profile guests from DeepMind, Meta, Discord, and other prominent companies, while participating in the LA-Tech + Fika Ventures Career Accelerator as an Academy Scholar.
- Developed a comprehensive understanding of sales, marketing, product management, and entrepreneurship through immersive training and hands-on experience.
- Developed a sales and marketing plan for a fictional startup in collaboration with a cross-functional team, leveraging market research and industry insights to drive strategic decision-making and maximize growth potential.
